KATALOG INSTALATERSKIH RADOVA

Katalog izvedenih INSTALATERSKIH RADOVA, predstavlja izvod iz referentne liste instalacija koje smo izveli i postrojenja koja smo rekonstruisali tokom dvadeset godina aktivnosti dve generacije osnivača Vektor firme. Prikazane su najrazličitije vrste instalacija na način kako bi potencijalni investitor mogao da stekne utisak o našem radu i da oceni značaj svake pojedine reference.

Tokom prethodnih dvadeset godina, za potrebe brojnih državnih institucija, industrijskih i privatnih investitora, izveli smo instalacije vredne više destina miliona evra, isporučili i ugradili:

- preko 5500 kotlova snage od 24 kW do 24 MW
- više od 3600 gorionika snage od 24 kW do 15 MW
- izveli na stotine gasnih instalacija, instalacija klimatizacije i industrijskih instalacija

Iskustvo koje smo stekli tokom prethodne dve decenije, garancija su efikasnog i fleksibilnog projektovanja, izvođenja instalacija i postprodajnih usluga, uz želju da se postigne potpuno zadovoljstvo klijenata.

OUR REFERENCE LIST

The publication that represents our REFERENCE LIST excerpt, covers a comprehensive overview of 20 years of Vektor company's activities through presentation of carefully made list of its selected references. It is dedicated to our potential customers, providing them a complete insight to our scope of installation works and effort made towards completing various facilities in the optimal way, within the projected budget and timeframe.

The experience gained from the projects executed for numerous government institutions, industrial and private investors, is a guarantee of efficient and flexible design work, supply and installation of quality equipment and after-sale services, aimed to achieve full client satisfaction. Within the above mentioned period we have:

- Delivered and installed over 5500 boilers of 24 KW to 24 MW
- Delivered and installed over 3600 burners of 24 KW to 55 MW
- completed hundreds of natural gas, LPG installations, electrical and HVAC works

Good quality work and supply of excellent, state-of-the-art equipment from the world-wide known principals, which our company represents for many years, brought us a status of a reliable partner among domestic clients and foreign companies. At present, we are a system that is capable, both from the technical and expert's aspect, to design, renew and complete the most complex energy-related and other installations as per „turn-key“ principle.
